Recommended Ithaca Restaurants and Bars

The listed restaurants are favorites of the Cornell Astronomy graduate students, and are organized by area: (1) On Campus; (2) Collegetown (short walk); (3) Downtown (longer downhill/uphill walk from the conference) and (4) Elsewhere, further afield. The map on page 4 shows only the area within walking distance to the conference. Hotels outside the map area generally have restaurants nearby that are readily visible from roadways.

KEEP IN MIND that Downtown literally is *down* a fairly steep hill; consider fitness and the walk back uphill in planning your meal time away from the Conference!

KEEP IN MIND that there are many other fine restaurants in the Ithaca area (30+ in Collegetown alone) that are not included in these listings. See <http://dining.14850.com> for a more comprehensive listing. Happy exploring and bon appétit!
