

DPS Publications Subcommittee

The Publications Subcommittee (PubSubCom) advises and provides independent oversight on all activities and topics pertinent to DPS publishing concerns, and also stays aware of issues in planetary science publications more generally. The Publications Subcommittee regularly reviews the publication policies of journals that the DPS endorses and supports.

History

The Publications Subcommittee existed as an ad-hoc subcommittee that came and went from existence over the entire history of the DPS. In the years from the 2015 Fall DPS through the 2018 DPS, it was an ad-hoc committee that was re-established every year. In the spring of 2019, this subcommittee became a standing subcommittee.

Members

There shall be at least 3 members, including the Chair. The DPS Committee shall appoint Publications Subcommittee members and the Chair as necessary. If you wish to serve, contact any member of the Publications Subcommittee or the DPS Committee.

Term

The term for members shall be 3 years. Members can serve multiple, consecutive terms.

Current Publications Subcommittee Members

Member	Term	Notes
Catherine Neish [1]	2019-2022
