DPS PRIZE NOMINATIONS DUE APR 15

Reminder that the deadline for all DPS prize nominations has been extended to April 15. Please see https://dps.aas.org/prizes [1] for more information.

2---------2---------2---------2---------2---------2---------2---------2---------2---------2---------2

NOMINATIONS ARE NOW OPEN FOR THE PLANETARY SCIENCE ADVISORY COMMITTEE

The Planetary Science Advisory Committee (PAC) supports the advisory needs of the Planetary Science Division (PSD), the Science Mission Directorate (SMD), and other mission directorates as required, as well as the NASA Administrator. The advisory scope of the PAC includes all aspects of NASA's planetary science program, including scientific research; considerations of the development of near-term enabling technologies, systems, and computing and information management capabilities; and developments with the potential to provide long-term improvements in future mission operational systems.

NASA's PSD is extending an invitation for nominations for service on the PAC. Interested members of the community are invited to review the charter and to submit nominations (including self-nominations) for consideration to fill vacancies on the Committee. Additional details can be found at https://www.lpi.usra.edu/planetary_news/2021/03/22/nasas-psd-is-accepting-nominations-for-the-pac/ [2]

and more information on the PAC at https://science.nasa.gov/nac/science-advisory-committees/pac [3]

EXTRATERRESTRIAL MATERIALS ANALYSIS GROUP (EXMAG) SPRING MEETING AND CALL FOR MEMBERS

The ExMAG Spring Meeting will be held April 7 and 8, 2021 from 1:00-5:00 p.m. EDT. The focus will be on curation of extraterrestrial materials, their allocation, and upcoming sample return missions. The meeting will include NASA HQ and Curation updates, reports on the collections, briefs on sample returns
A. Faculty position in Exoplanets and Planetary Sciences, Santiago, Chile

https://dps.aas.org/content/faculty-position-exoplanets-and-planetary-sciences [9]
B. Postdoctoral Research Associate in cometary science, Edinburgh

The successful candidate will join the research group led by Dr Colin Snodgrass and Dr Cyrielle Opitom at the University of Edinburgh.

The research goal of this position is to advance our understanding of the formation, evolution, and composition of comets. The successful candidate will work together with Dr Snodgrass and Dr Opitom on a variety of projects in this area, depending on their experience and research interests. Potential areas of interest include (but are not restricted to):

C. Tenure-track asst professor in planetary science, U. Washington, Seattle

The University of Washington Department of Earth and Space Sciences seeks an outstanding scientist working at the forefront of research in one of more of the following areas: planetary geology, geomorphology, geochemistry, glaciology, or geophysics. They may focus on observations, experiments, and/or modeling of surfaces, atmospheres, or interiors of planets, exoplanets, or moons. We seek a colleague who can provide high quality teaching and contribute collaboratively within the department, college, and across campus.

Preference will be given to applications received before May 7th, 2021. For full details, please see: apply.interfolio.com/85329 [13]

D. Hess Research Fellowship in Earth, Ocean, Astronomy and Environmental Sciences, Victoria, BC

https://dps.aas.org/node/2334 [14]

E. Staff Scientist at NASA Exoplanet Science Institute (NExScI)

https://dps.aas.org/node/2329 [15]

F. POSITIONS IN THE PLANETARY SCIENCE DIVISION (PSD) AT NASA HEADQUARTERS

NASA Program Scientists tackle a wide variety of challenges. These include: developing, operating, and maintaining Research & Analysis grants programs; serving as the Headquarters scientific lead for one or more Planetary Science missions; and helping implement and communicate the Planetary Science Division's strategic goals. Program scientists can have substantial influence on strategic planning and can help shape the long-term scientific direction of missions and programs that they Oversee.

The Planetary Science Division (PSD) anticipates hiring one or more new program scientists, either as civil or through a detail or the Intergovernmental Personnel Act (IPA). More information on both types of positions can be found at:

https://science.nasa.gov/about-us/job-opportunities [16]
