SBAG STEERING COMMITTEE POSITIONS OPEN (MAY 6)

Three positions are open for the Steering Committee of the Small Bodies Assessment Group (SBAG), with three-year terms starting in August 2022.

The Committee organizes SBAG meetings, writes the official SBAG findings, and takes a leadership role in other activities where community input on topics of interest is needed.

In addition to a member in Planetary Defense who works to understand the population of small bodies that may impact our planet, we seek two at-large members in any area of small body research at any career stage.

The application requires: 1) a two-page CV, including a description of participation in SBAG or other small bodies organizations, and 2) a short (300 words maximum) statement of interest. Criteria for selection are: participation in small bodies community organizations, leadership experience, and relevant research or mission experience.

In support of diversity, applicants may specify gender, whether they belong to an underrepresented group in STEM, or other additional relevant information.

Send applications to Bonnie Buratti (bonnie.buratti@jpl.nasa.gov [7]) by May 6, 2022, 8:00 PM EDT. New members will be announced at the 27th Meeting of SBAG, June 7-9, 2022.

Bonnie Buratti, SBAG Steering Committee Chair

SBAG EARLY CAREER OPPORTUNITIES

The upcoming NASA Small Bodies Assessment Group meeting will be held virtually and in person in

The Dept. of Astronomy & Planetary Science, Northern Arizona University, has a Lecturer or Assistant Teaching Professor in Astronomy position opening! We'd love to invite any qualified people, and especially those with diverse backgrounds, to apply and to join us in teaching and/or developing our unique curriculum at beautiful Flagstaff, AZ! Please send any inquires to the committee chair, Dr. Lisa Chien (Lisa.Chien@nau.edu [23]).

C. Postdoctoral Position In Planetary Astronomy, Caltech

<https://www.gps.caltech.edu/about/positions-available/postdoctoral-positions/postdoctoral-position-planetary-science> [26]

Applications are invited for a postdoctoral position in planetary astronomy within Caltech's Division of Geological and Planetary Sciences. The successful applicant will collaborate with the de Kleer research group on the interpretation of thermal data of icy moons and small bodies from ALMA, the VLA, and JWST. The work will involve reduction and analysis of thermal data, as well as collaboration on the development of (sub)surface models which will be used to characterize (sub)surface processes on these worlds. The project requires training in mathematics and physics as well as strong scientific programming skills. Experience working with astronomical or spacecraft data is required, and experience with radio interferometry and/or mid-infrared spectroscopy is preferred. The successful candidate will have opportunities to mentor graduate and undergraduate students.

The start date is flexible, but will be no sooner than June 1, 2022. The initial duration of the position is one year, with renewal for up to two additional years. The position offers a competitive salary, benefits, and annual research budget, as well as access to Caltech's extensive resources, including the Keck and Palomar Observatories and computational facilities.

Applicants for the position must have a PhD in planetary science, astronomy, astrophysics, physics, geology, or an equivalent field by the date of their appointment. Applicants must provide a CV including a complete list of publications; a 1-2 page statement describing their research interests and experience; and the names of three individuals who can provide letters of recommendation. Application materials should be sent to Jen Shechet (shechet@caltech.edu [27]) no later than May 20, 2022. Questions regarding the position should be directed to Professor Katherine de Kleer (dekleer@caltech.edu [28]).
