MESSAGE FROM THE CHAIR: REGISTRATION FEES

Dear DPS Members,

We are getting ready to open up registration and you will likely have sticker shock at the increase in DPS registration fees for the 2022 London, Ontario meeting. We did too when we met to work through the meeting budget and finalized the numbers.

Some key guidelines we used in setting the registration fees:

DPS should not plan to make a profit on the meetings but should budget for the meeting to roughly break even.

Attendance should be assumed to reflect the historical attendance at DPS meetings.

The deadline for submission is Jul 26. An abstract must be submitted for every presentation. There are 5 types of presentations for the Division for Planetary Sciences Meeting.

- Invited talk (Plenary or Prize)
- Research Contributed (including Dissertation talks)
- History
- Education
- Workforce

You may present a maximum of four (4) abstracts from the above categories, selecting no more than one paper for any one category.

3-----3-----3-----3-----3-----3-----3-----3-----3-----3-----3-----

2022 DPS URM TRAVEL GRANT APPLICATION OPEN UNTIL AUGUST 5

The DPS once again offers travel funds to encourage and support participation of students, scientists, and other space professionals who are members of historically underrepresented and underserved racial and ethnic groups. In partnership with the National Society of Black Physicists (NSBP), awards are available for members of Black/African American, Indigenous, and/or Latinx communities to support attendance at the annual DPS meeting and/or the annual NSBP meeting. To apply for in-person travel support for either the DPS or NSBP 2022 meeting, please apply by August 5. Tentatively, a later deadline will be set for applications for virtual registration (but such applications can be submitted now).

The application can be found at

<https://dps.aas.org/content/underrepresented-minority-communities-planetary-science-travel-grant-form> [2].

The DPS community is encouraged to support this fund – donations can be submitted at: <https://dps.aas.org/Inclusivity/support-underrepresented-minority-communities-planetary-science> [3].

4-----4-----4-----4-----4-----4-----4-----4-----4-----4-----4-----

ELECTION OPEN UNTIL AUG 12

You should have received your ballot last week in your email. This election has two components: voting for Division leaders and considering changes to the DPS Bylaws.

LEADERSHIP: This year we're choosing a new Vice-Chair, two DPS Committee members, and one Student Representative to the DPS Committee. The Vice-Chair will become Chair in October 2023. Information and position statements for all candidates have been [collected into this single PDF](#) [4].

BYLAWS: Please review the [DPS Bylaws Markup](#) [5] before voting FOR or AGAINST approval.

5-----5-----5-----5-----5-----5-----5-----5-----5-----5-----5-----

SURVEY TO GUIDE FUTURE DPS MEETING STRUCTURES BY JULY 25

The DPS Meetings Exploration Team (DPS-MXT) is working to identify options for future DPS fall meeting structures (e.g., virtual, in-person focused, or hybrid) that would best serve the full DPS community, and is soliciting input from the DPS community via a survey. The survey will take 5-30min to fill out (depending on your level of answer detail) and is at: <https://bit.ly/3R6XUgD> [6]. More information about DPS-MXT can be found at <https://dps.aas.org/meetings/dps-mxt> [7], and questions/comments can be directed to the DPS-MXT Chair, Serina Diniega (serina.diniega@jpl.nasa.gov [8]). Thank you for your help!

6-----6-----6-----6-----6-----6-----6-----6-----6-----6-----6-----

AGU SESSION P009: EXTRAORDINARY ENCELADUS

With the release of the 2023-2032 Decadal Survey Origins, Worlds, and Life, we now know that a return to Enceladus is a top priority of the planetary science and astrobiology communities. The reason why Enceladus is of such profound interest is the extraordinary science that it has provided on ocean world processes and the potential for life beyond Earth.

This long-standing session seeks to continue our discussions on all of the fascinating phenomena that make Enceladus so alluring. We encourage submissions on a wide range of topics that include (but are not limited to): Enceladus's plume, its jets/curtains, surface geology and composition, tectonics, ocean chemistry, heat generation and transport processes, hydrothermal systems, analog studies, interior structure, thermal and geochemical evolution, formation and age, prebiotic chemistry, habitability, and

JOBS, POSITIONS AND OPPORTUNITIES

A. Postdoc MITHNEOS, NAU

The postdoctoral scholar will work in collaboration with Dr. Cristina Thomas and other project team members on the MIT-Hawaii Near Earth Object Spectroscopic Survey (MITHNEOS), a long-running near-infrared spectral survey using SpeX on the NASA Infrared Telescope Facility (IRTF). Leadership of the program has recently passed to Dr. Thomas at NAU. The postdoctoral scholar will take a leading role in all aspects of the survey including target selection, spectroscopic observations (~1 night per month), reduction, and data analysis.

To apply please submit a cover letter, curriculum vitae, a statement of past research accomplishments and future research goals (2 pages or less), and contact information for three references.

<https://dps.aas.org/content/postdoc-mithneos> [15]

Send submissions to: Maria Womack, DPS Secretary (dpssec@aaas.org) [16]
