## For Scientists

Releases to the media are distributed to the media by the DPS Press Officer through the Press Office of the American Astronomical Society, and hence must adhere to the guidelines. Here is some information that may be useful as you prepare your release.

Traditionally media releases have been issued during the annual meetings as part of media briefings. Results presented at the annual conference are embargoed until the time of the presentation.

You are welcome to contact the DPS Press Officer at any time you may have a science story or results deemed worthy of sharing with the public through the media.
