

Future DPS Meetings

If you would like to host a future DPS meeting we would like to hear from you! The first step is to make sure that your city has a facility large enough to host the meeting (the number of attendees has grown to >700). We have a [spreadsheet \(Excel format\)](#) [1], courtesy of Jason Barnes, to help you make that judgement with a few examples. Note that a convention center is not necessary if there is a hotel available with adequate space.

Once you have checked on this minimum threshold please contact any [DPS Officer](#) [2] or [DPS Committee member](#) [3]. For tips and advice on running an annual meeting, see the most recent version of the [DPS Meeting Guide](#) [4].

Note for the meeting dates listed below the first day is the opening reception, registration, and workshops. Scientific sessions begin on the next day. There is also [information for first-time attendees and students](#) [5] available.

[6]

Upcoming Meeting

[53rd Annual Meeting](#) [6]

Date: 3-8 October, 2021
Venue: Vitual
City: Virtual
